Drum Clamps

Drum clamps are designed to carry two or four oil drums at the same time, ensuring that this is a safe and reliable process, and significantly improve handling efficiency.

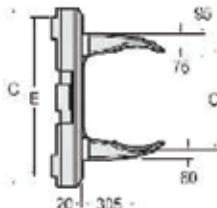

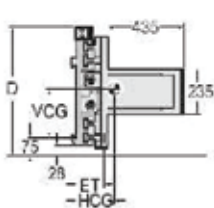

Widely used in bulk cargo handling, piling work such as oil, petrochemical, food and other industries.

Features

- Proven durability beam aluminum frame construction
- Superior arm-side bearing for extended service life.
- Excellent drive visibility
- Rubber pads on clamp arms can be replaced conveniently.
- Economic and practical
